

International Shopping Plaza Concept Design Competition

Supplementary Information

2015-2016 International Shopping Plaza Concept Design Competition has attracted considerable amount of public attention since its first release. A good number of professional participants are enthusiastic for more information on the possible realization of their schemes.

Under such a circumstance, the organizing committee offered a 9,000-100,000 m² Wanda Commercial Plaza (3-4 floors) general requirement for participants especially internationals to better grasp the project.. Please note, the requirement is not mandatory. It only serves to illustrate what a Wanda Plaza is usually like. Any adjustment, modification or development on the requirement is welcomed, and even encouraged.
